All-Bottle™ 703
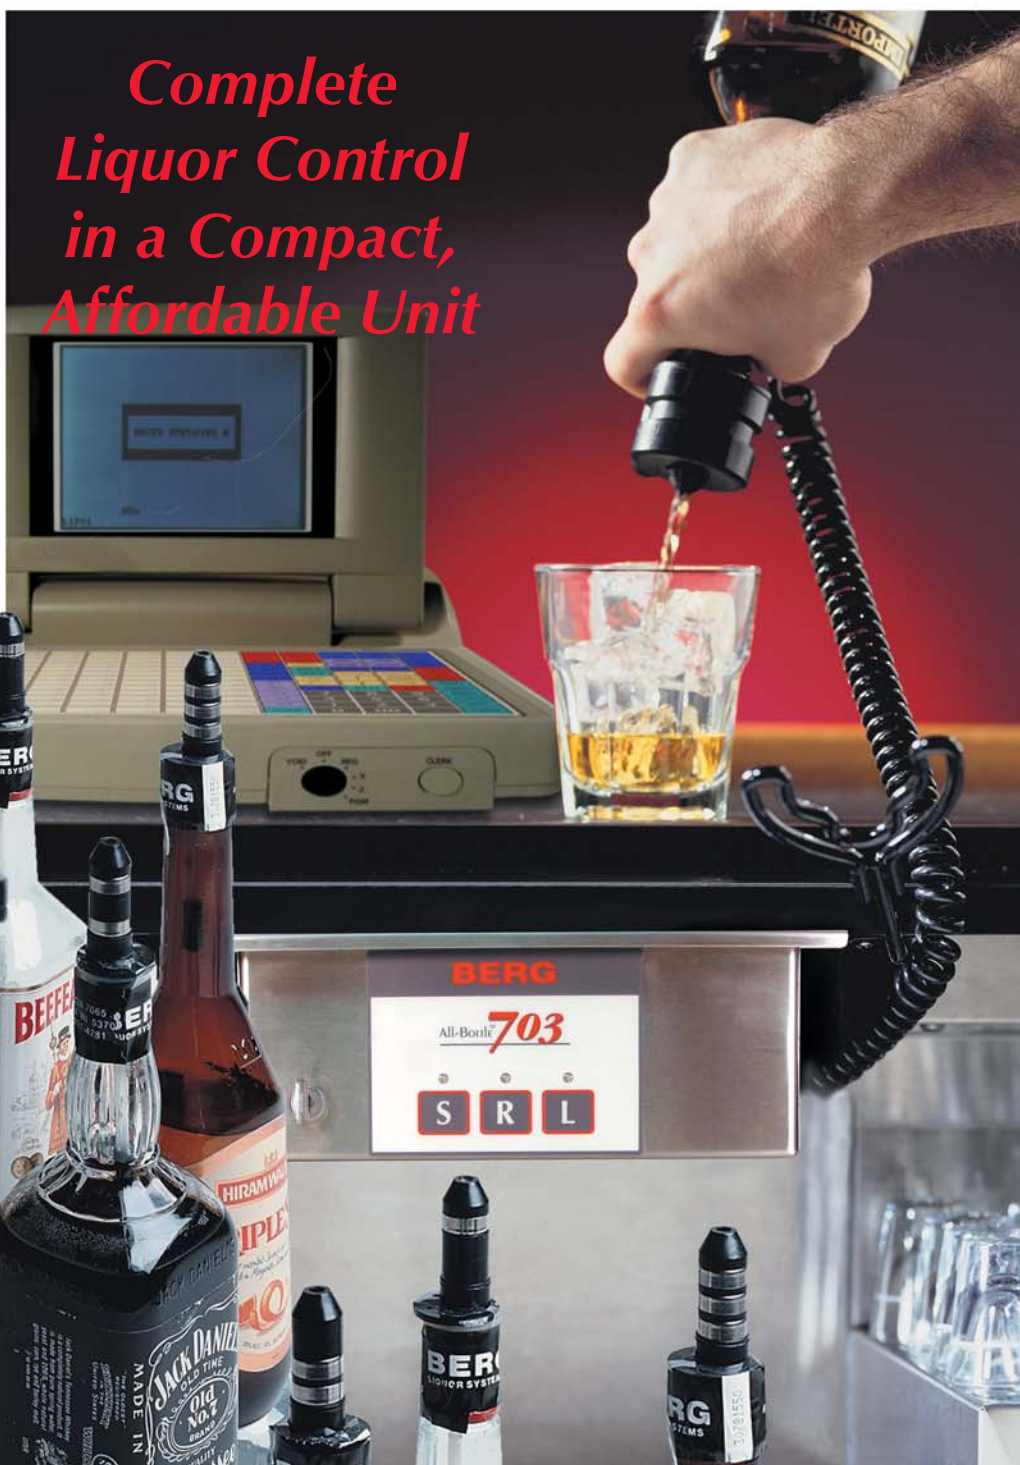

Seven price codes, three programmable portion sizes, and POS interface

Complete Liquor Control in a Compact, Affordable Unit

All-Bottle 703

S R L

The industry's standard in beverage control systems . . .

BERG
Multi-Beverage Systems

All-Bottle™ 703

Rock-solid basic accountability and repeatability ... in an affordable, compact, easy-to-use liquor control unit.

As the manager/owner of your property, don't be chained to your bar because of accountability concerns. Let Berg be your representative behind the bar — when you're not present. Know that every drink poured will be accounted for with the **All-Bottle 703**™ interfaced to a POS. The AB703 System locks all of your open bottles and gives your customers a consistent drink with all servers.

Combining the latest technology with Berg's innovative engineering provides a very easy to use, reliable and affordable control system for any size establishment. And with the Berg System, your customers are assured that they are getting a consistent drink everytime.

Features:

- **Offers THREE user settable portion sizes** — adjustable from 1/8 to 10 ounces, for each price code.

- **Reads up to seven different price codes** — using either the standard or fast-pour style of Berg's price coded pourers.

- **Permits pour-delay/restart function** — restart a pour by keeping bottle inverted for a programmable delay.

- **Mechanical keyswitch lockout** — for additional after hours security.

- **Standard POS (Serial) sales terminal interface** — assures that all pouring activity is recorded at the sales terminal.
